ABOUT ME | ÜBER MICH | PROPOS MOI

I am a **Web Developer** and **Digital Designer** with a decade of experience, seamlessly blending technical expertise with a passion for creating user-centred, immersive digital experiences. Over the years, I've sharpened my skills at leading European agencies, which has shaped my approach and allowed me to collaborate with a broad spectrum of clients across various industries.

- **Navos Create (Berlin)** - My time at this internationally acclaimed studio for animation significantly influenced my understanding of narrative-driven projects. As a web developer and UI/UX designer, I had the privilege of working alongside exceptional animators, gaining invaluable insights into motion theory. The studio's focus on storytelling through design continues to inspire my work.
- **60fps (France)** - I advanced my technical expertise by working with sophisticated JavaScript libraries such as WebGL, Three.js, and GSAP, pushing the boundaries of web development.
- **Yellowball (London)** - As Senior Designer, I led a team while collaborating closely with developers to bring bold ideas to life through UI/UX design, with a particular focus on dynamic, avant-garde digital experiences.

I studied a **Master's in Creative Technology from the University of West England** (UWE Bristol), where I delved into the fusion of **UX design** and **creative development**. Additionally, I earned a **Bachelor's in Graphic Communication from Norwich University of the Arts** (NUA), where I cultivated the ability to transform abstract concepts into visually captivating designs.

Fluent in English, I've lived and worked across Germany, France, the Netherlands, Sweden, and the UK. This international experience has fine-tuned my adaptability, and I actively seek to integrate diverse cultural perspectives into my work.

TRAINING | ZUSÄTZLICHES

- Interacting with autonomous & learning systems at the Experience Design University, Siegen, Germany 2018.
- Human Computer Interaction + Machine Learning, at Universiteit van Amsterdam, Netherlands 2018.
- Transmediale Berlin 2019 - Drawing out new connections between art, culture, + technology.
- Three.js journey - Using the JavaScript library to create animated 3D graphics in browser using WebGL 2020.

SOFTWARE + CODING

HTML, CSS, JavaScript, React, Three.js, WebGL, Wordpress, Figma, Photoshop, Illustrator, InDesign, AfterEffects, Blender, Unity, Premier Pro, Ableton.

LANGUAGES | SPRACHEN | LANGUES

English, French, German, Swedish, Dutch.

NOT WORK

Making/Performing/Watching Music, Art, Electric Guitar, Saxophone, Boxing, Basketball, Chess, Football, Travelling.

AREAS OF INTEREST

Behavioural Science, Astrophysics, Conceptual Art.

* EDUCATION * AUSBILDUNG * ÉDUCATION

CREATIVE TECHNOLOGY MSC
UNIVERSITY OF WEST ENGLAND (UWE)
Focused on creating, applying, and evaluating technological solutions across creative contexts. Projects included programming, web technologies, UX design, and machine learning, with practical applications in app development, sound design, conceptual art, interactive experiences, and web development.

BRISTOL

2018 - 2019

GRAPHIC COMMUNICATION BA
NORWICH UNIVERSITY OF THE ARTS (NUA)
Explored various design disciplines, including UI, animation, graphic design, branding, packaging, film, and contemporary art. The program honed my ability to critically analyze research and produce creative work both independently and collaboratively.

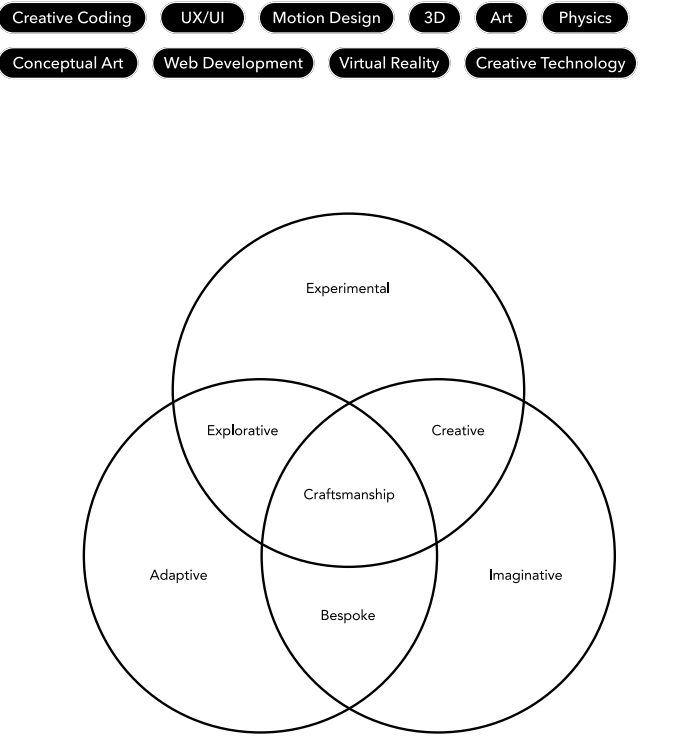

NORWICH

2013 - 2017

ART FOUNDATION
SUFFOLK NEW COLLEGE (SNC)
A foundational year that provided the knowledge and skills needed to progress to university-level design studies. Focused on painting and graphic design, while also exploring fine art, fashion, sculpture, illustration, and animation.

IPSWICH

2011 - 2012

WORK EXPERIENCE // EXPÉRIENCE PROFESSIONNELLE // BERUFSERFAHRUNG ↓↓↓

WEB DESIGNER + DEVELOPER
RUROC (FREELANCE)
Ruroc is one of the world's biggest helmet brands, known for collaborations with Marvel, Disney, and DC. My job was to make sure their digital experience matched that energy. I focused on the psychology of e-commerce designing pages that reduced friction and nudged riders from curiosity to checkout. Alongside UX/UI, I built immersive 3D experiences with Three.js where helmets moved, spun, and felt tactile on the screen.

BRISTOL

JAN 2024 - SEPT 2025

CREATIVE DEVELOPER
60FPS
At 60fps, I worked alongside a talented team to push the boundaries of web development and digital experiences. The agency collaborates with high-profile fashion clients such as Louis Vuitton, Chanel, and Dior. While working here I advanced my technical expertise by working with sophisticated JavaScript libraries like WebGL, Three.js, and GSAP, crafting cutting-edge web solutions that set new industry standards.

NANCY FRANCE

JUL 2022 - OCT 2023

SENIOR WEB DESIGNER
YELLOWBALL
As Senior Web Designer, I led the design direction for both new and potential clients. I managed a team of junior designers and devs, guiding their design and development while collaborating with developers to bring bold, avant-garde ideas to life. The fast-paced agency environment pushed me to challenge the traditional concepts of web design, empowering users and clients with more control over their digital experiences.

LONDON

AUG 2021 - JUL 2022

WEB DESIGNER + CREATIVE DEVELOPER
NAVOS CREATE (FKA GOLDENER WESTEN)
At this Berlin-based agency, I managed both design and development aspects, working alongside a diverse team of designers, illustrators, and animators. We created sophisticated, narrative-driven websites using storytelling as our core approach. This experience deepened my appreciation for the power of motion theory and artistic direction in engaging digital experiences.

BERLIN

JUN 2019 - JUL 2021

CREATIVE TECHNOLOGIST
MANGO MEDIA (FREELANCE)
As a freelancer, I've collaborated with a wide range of clients including musicians, fashion brands, and the English Football Association. Working across Europe has shaped how I think about design, development, and problem-solving. These experiences influence my creative process and help me craft digital work that feels immersive, and centred around real user behaviour.

WORLDWIDE

EST 2015

WEB DESIGNER + DEVELOPER
CODEWEST
While completing my Master's, I worked part-time at Codewest, an enterprise studio within the Department of Computer Science and Creative Technologies. I led projects, managing and supporting teams to bring conceptual ideas to life, blending creative and technical work in academic projects.

BRISTOL

SEP 2018 - APR 2019

WEB DESIGNER + DEVELOPER
LOLLIPOP
During my freelance contract with Lollipop, a creative agency based in Shoreditch, I managed the design and frontend development of a wine subscription service website and app. I ensured a seamless and immersive experience, from initial concept to final execution.

LONDON

FEB 2018 - JUN 2018

WEB DESIGNER + DEVELOPER
DEEPLAKE DIGITAL
At Deeplake Digital, I managed development, graphic design, and interface design. I collaborated with the marketing team to redefine the company's visual identity, creating motion graphics, marketing materials, and overhauling their website to align with a refreshed brand vision.

CAMBRIDGE

MAR 2017 - FEB 2018

OTHER EXPERIENCE
At 10, I began washing cars in my local neighbourhood, using the money I earned to buy, fix, and customise bikes, reselling them to my peers. At 13, I delivered papers in the British rain early in the morning before school. By 15, I was working in a restaurant washing plates, often putting in 12-hour shifts, including on Christmas Day. During university, I worked in various pubs, bars, and restaurants. I also trained as a plumber after leaving school.

ADVERTISING
EAST ANGLIAN DAILY TIMES
Prior to my Bachelor's degree, I worked in the digital team at the UK's largest independently owned media company. I managed client relationships and collaborated with designers to refine ad designs, ensuring they effectively communicated messages to a wide audience.

IPSWICH

JUL 2011 - SEP 2012

SALES EXECUTIVE
THREE
At Three, I managed customer interactions and sales in a fast-paced, tech-driven environment. I developed extensive knowledge of Apple and Android products while helping customers find the right mobile solutions.

IPSWICH

OCT 2010 - AUG 2011

AREA MARKETING EXECUTIVE
SAMSUNG
I managed the launch of the Samsung Galaxy S in Essex and Suffolk, including in-store demonstrations, customer education on the phone's features, and training colleagues to ensure clarity on the product's capabilities.

COLCHESTER

MAR 2017 - FEB 2018
